MZ-Analysentechnik will move into new premises on October 2nd 2020

After three years of intensive planning and implementing, we are extremely excited to announce the upcoming move to our new corporate building. From October 2nd, 2020 on our new address will be as follows:

MZ-Analysentechnik GmbH
Barcelona-Allee 17
55129 Mainz, Germany

Our telephone and fax numbers will also change and extension numbers will be introduced. Of course, we will also be available through the old phone and fax numbers during a transition period. Our new numbers are:

Telefon +49 (0) 6131 / 88 0 96-0
Fax +49 (0) 6131 / 88 0 96-20

What does that mean for you:

- **Unfortunately, we will only be available to a limited extent on October 2nd, 2020.** Please contact us on this day preferably by email. We will take care of your request as soon as possible.
- **No delay in production.** The delivery times of our self produced chromatography columns will not be affected by the move.
- **Improved customer service and more product innovations.** Our tailor-made premises offer plenty of space for process optimization, shorter delivery times due to spacious storage areas and more modern laboratories for research, development and production.
