

SELECTRA® C18 HPLC COLUMN

INNOVATION THROUGH CHEMISTRY

Product Benefits

- Good choice for easily converting current C18 methods
- Suitable for most traditional reverse phase analyses
- High purity, type B spherical silica
- Excellent Carbon loading
- Fully endcapped
- Conforms to USP L1

UCT has leveraged its experience working with analytical scientists to create a line of HPLC columns.

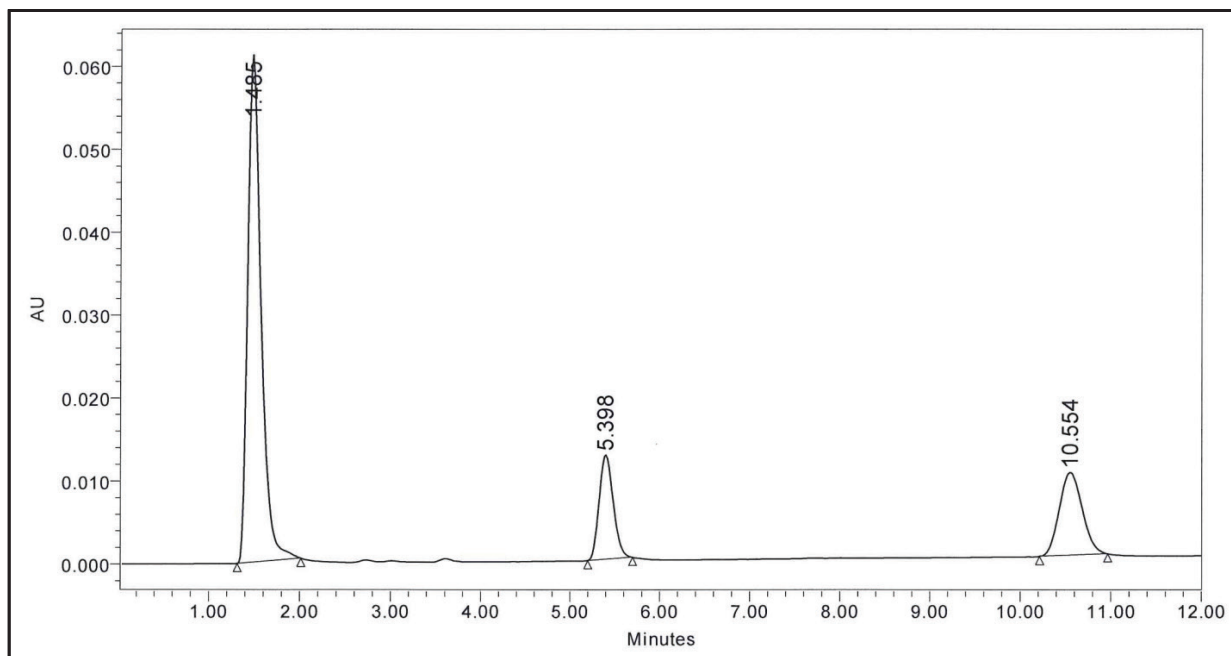

Selectra® columns start with the bare silica support. UCT uses only an ultra-pure and highly reproducible material. It is a type B, spherical silica with a 100Å pore size. Currently, 3 µm and 5 µm particle sizes are available. As a vertically integrated company, UCT is the only column manufacturer that makes its own highly reproducible and high purity silanes. These silanes are bonded to the silica support to create stationary phases of unmatched quality.

All Selectra® HPLC columns are individually packed and every column is QC tested. Each column must meet high standards for theoretical plate count and peak symmetry under Statistical Process Control. There is no batch column testing, and every column shipped comes with a CoA containing a chromatogram of the test mix run on that column along with its results.

The Selectra® C18 is our workhorse C18 phase and is a great choice for converting from another C18 column. It can be used for the separation of acidic, neutral and basic compounds.

PRICES AND TERMS

Our prices are subject to change without notice. The price in effect when we receive your order will apply. All prices are in US Dollars and are F.O.B. Terms of payment are net 30 days.

MINIMUM ORDERS

We welcome all orders, therefore, we do not have a minimum order requirement. When ordering, please include your purchase order number, complete "Ship To" and "Bill To" address, catalog number, quantity, and description of product(s). Also include your name and a phone number where you can be reached should we have any questions concerning your order.

SHIPMENTS

Normal processing is within 24 hours after receipt of an order. Unless special shipping requests have been made, our trained staff will send all orders by UPS Ground service. The appropriate shipping charges (freight & insurance costs) will be added to the invoice, unless otherwise instructed by the customer.

SPECIAL PRICING

We offer special pricing for volume purchases and standing orders. These discounts apply to bonded phase extraction column purchases only. Please call a sales representative for more information on special pricing qualifications.

RETURN POLICY

Our Quality Manager will handle all returns. Before returning merchandise, please call to obtain a return authorization number from the quality manager. We will need to know the reason for the return, date of purchase, purchase order number and invoice number in order to issue a return authorization number. Return merchandise must be received before a credit can be issued. Returns will not be accepted after 90 days. A restocking fee of 25% of the price paid, or a minimum of \$25.00 (whichever is greater) will be charged on all returns.

WARRANTY

All products manufactured by UCT are guaranteed against defects in materials and workmanship for a period of 90 days after shipment. UCT will replace any items that prove to be defective during this time period.

The exclusive remedy requires the end user to first advise UCT of the defective product by phone or in writing. Secondly, the defective product must be returned within 30 days after proper approval from our Quality Manager. All returns must indicate the purchase order number, the lot number and the shipping date. UCT's total liability is limited to the replacement cost of UCT products.

This warranty does not apply to damage resulting from misuse.
